Sample Copy - Proudly Brought To You By Home-Jobs-Directory.com

Hi... this is Jay Harris here!

First of all, I would like to congratulate you being on the right track to achieve financial freedom.

The "**Work-At-Home Jobs Directory - Version 2.0**" is exclusively developed for motivated individuals who want to fulfill their dream by working from home. I hope this would be your gateway to success.

It's your **secret key to success** in work at home jobs. But you need to perform a self assessment by asking some vital questions to yourself. These questions are a guideline to self-enterprise.

So think and decide your answer:

1. Do you prefer to work for yourself than for others?
2. Are you a leader?
3. Do you take advantage of opportunities?
4. Do you pay attention to what other people say?
5. Can you finish a job even when it is difficult or unpleasant?
6. Are you challenged by problems?
7. Do you have a goal you want to achieve?
8. Do you consider other people?
9. Do you strive to attain?
10. Are you ready for success?

If you answered **YES** to at least **7 of these questions**, you have that extra zing or potential to achieve success in this field.

Today, the workplace is rapidly expanding to include many workplace alternatives. One alternative is the work-from-home situation where the same tasks that are performed in the office environment can now be performed in the comfort of your home.

The move toward the **anyplace, anytime workspace** has transformed traditional working arrangements. Work is no longer a place. Work is simply something you do.

Today, about 10% of the workforce (more than nine million Americans) telecommute. There are another **14.2 million independent people who work from home**. Roughly 23% of the working population in the U.S. work outside of the traditional office environment.

More and more, private and public organizations are adopting telecommuting as a business strategy. There are a variety of reasons: the **need for 24-hour customer support**, technological advancements, increased moral of employees, worker's desire for increased flexibility, and the need to reduce overhead.

Home-based work also gives organizations the ability to attract a wider range of workers including the physically challenged, parents with young children, people with elder care responsibilities, and members of dual-career families.

Home-based telecommuters continue to perform work at home even when they have a cold or other minor ailment that may have kept them out of the office.

You can **work anywhere that has a power cord and a phone line**.

The "**Work-At-Home Jobs Directory - Version 2.0**" will show where to find a *real work at home job* with over **2,500 companies**, all over the United States and Europe that hire people to work from home.

There is **no reason to worry about relocating** long distances from your familiar home area, or the cost of relocation expenses.

These particular companies allow you to do your job and **perform your duties directly from your own home.**

This is your road map, showing you the proper course to follow in making your **dream of working from home a reality.**

You can work from home and have **more balance and time in your life!**

****END****
